Professional Services to Not-for-Profit Organizations

**FMA expands product offerings enabling nonprofits to reduce costs and risks, and improve efficiencies**

**CHICAGO/NEW YORK – January 18, 2011 – [Fiscal Management Associates, LLC \(FMA\)](#), a leading national consulting firm to nonprofit organizations, today announced it will expand its business process automation services through the combination of FMA affiliate ERE LLP, and [Morrison, Brown, Argiz & Farra](#) LLC (MBAF), Florida’s largest independent public accountant firm, and its affiliate Solutions@MBAF, a technology consulting practice.**

The combination brings together two organizations with extensive national experience serving the nonprofit sector. FMA and Solutions@MBAF’s team of technology experts will now provide nonprofit clients with the full spectrum of financial management software services that ensure timely access to financial information, effective reporting and reduced administrative costs.

“Since the start of the economic downturn, we have been helping our clients maximize efficiencies by strengthening their business processes,” said Hilda H. Polanco, FMA’s Managing Director. “For many nonprofits, the key to financial survival is streamlining operations through the efficient use of technology. Our partnership with MBAF deepens FMA’s ability to help nonprofits maximize financial management operations, reducing costs and risks.”

The new relationship between FMA and Solutions@MBAF enables both firms to offer a wider array of services to their clients. FMA offers a full-range of financial management, accounting, organization and technology consulting services to the nonprofit sector. Through the [FMA Institute](#), its professional development arm, FMA also offers continuing professional education (CPE) eligible courses approved by the National Association of State Boards of Accountancy (NASBA) for everyone at a nonprofit with a financial role. Together, the two firms have worked with more than 700 nonprofit organizations in the U.S.

###

**About FMA**
